## GUIDELINES FOR CURBSIDE LEAF PICKUP

### TO DO:

Leaves MUST be raked to the curbside of the property.

Remove all other debris from the leaf pile. The pile cannot have any limbs, rocks, bricks, concrete, or other debris. All non-leaf debris will be left for the property owner to clean up.

Place leaves in a tight pile(s) within 2 to 10 feet of the curb for ease of pickup.

Submit a request to the Public Works Department for pickup

### DO NOT:

DO NOT place leaves in the street or curb. This causes drainage issues.

DO NOT put limbs or other debris in leaf piles. It will not be picked up and will be left for the resident or property owner to dispose.

DO NOT put leaves in containers or bags for curbside pickup. Any leaves in bags can be placed next to your household garbage for pickup by Waste Management on a regularly scheduled garbage pickup day.
