Truck Route Description (Include Proposed Truck Route Map):			

PERMIT TERMS & INSTRUCTIONS

Truck Route Permit Requirement – A truck route permit is required per City Ordinance Section 78, Article VI. Generally, a truck route permit is required for non-exempt trucks and vehicles operating on streets not designated as a truck route. See ‘Official Truck Route Map’. These provisions do not apply to the operation of trucks or vehicles on any state and/or federal highway.

Exempt Trucks and Vehicles – Trucks and vehicles classified as 1-5 as defined by the Federal Highway Administration 13 Vehicle Category Classification. Any federal, state, county, or municipal truck or vehicle which is classified as 6-13. Any truck or vehicle under contract with a federal or state agency, county, or municipality. Any truck or vehicle owned by a public utility, as defined in MCA Section 77-3-3(d) and in the course of customer service. Customer service does not include construction projects.

Truck and Vehicle Traffic to Businesses and Homes – Trucks and vehicles otherwise subject to the provisions of this Article which are engaged in transporting goods and/or services to businesses and/or homes in the city may utilize streets other than those designated on the ‘Official Truck Route Map’; however, such trucks and vehicles shall use the most direct route within the city utilizing the designated truck routes as much as reasonably practical.

Construction Traffic – Subject to Truck Route Approval pursuant to Sec. 78-115.

Special Approvals – Subject to Truck Route Approval pursuant to Sec. 78-117.

Submittal Requirements:

- Completed Truck Route Approval Application
- Proposed Truck Route Map
